Our Vision

Horus was an ancient Egyptian god in the form of a falcon. The right eye represents a Peregrine Falcon's eye and the markings around it, that includes the "teardrop" marking sometimes found below the eye. The eye of Horus is also known as the Wedjat – a solar deity. The symbol is her all seeing eye...

To become the preferred security service provider in the Indian sub-continent and abroad, making a difference to the lives of people and organisations by providing unparalleled security with unwavering ethics, strong corporate governance and corporate social responsibility... the Peregrine way of working.
